What's new with B2B?

Congratulations to all participants, volunteers and B2B staff! Our latest B2B beach volleyball tournament held at Britannia Park on June 20th, 2010, was a runaway success. The event was partnered alongside **Stroll for Liver** to raise money in support for the Canadian Liver Foundation, whose efforts to fight against liver disease have brought communities together. 1 in 10 Canadians will be affected by a liver or biliary tract disease in their lifetime – the money fundraised will support research and education into the causes, diagnosis, prevention and treatment of liver disease.

Through our combined efforts, we were able to present a giant cheque to the Canadian Liver Foundation for \$2375.00! Our contribution helped the Canadian Liver Foundation double the total amount they raised last year.

Shout-outs to champions Lazy Ninjas and Bubbles!

Also, thank you to all participants, volunteers and spectators who took time to answer our survey questions and to everyone who provided feedback concerning the event. Your thoughts and suggestions will be taken into full consideration and we will work hard to ensure that our future events meet and exceed your expectations!

Special News

Recently, Executive Director and CEO of Begin 2 Believe David Nguyen began efforts to register the organization under the *Corporations Act* and the Government of Ontario (Canada). Any organization incorporated under the *Corporations Act* does not issue shares, but rather works for not-for-profit purposes.

I would like to announce that David was successful in this endeavour. Begin 2 Believe Association is now officially incorporated under the *Corporations Act* and is now legally recognized as a not-for-profit organization under the Government of Ontario.

With this increased recognition comes heightened responsibility – Begin 2 Believe is ready to step onto the big stage with bigger and better things to come!

Personal Thoughts

Before my involvement with the Begin 2 Believe Association team, I participated regularly in their charity events. Ever since the first volleyball tournament back in June 2008, my friends and I have always looked forward to putting our teams together, hitting the beach and flashing our beach bodies!

It was not until recently that I decided to join the B2B team. As a participant and spectator I stood the sidelines and witnessed Begin 2 Believe grow into a group of strong-minded and passionate individuals. The core members of the B2B team have demonstrated a level of leadership and unwavering commitment that is nothing short of inspiring, and it's for this reason that I wanted to be a part of Begin 2 Believe. I wanted to be part of something I could be proud of – I wanted to work with people who cared.

Begin 2 Believe has given me the opportunity to explore my interests in writing and publication. As editor I will work alongside Nicol Lum, our Chief Technical Officer, to bridge the lines of communication between Begin 2 Believe and the surrounding community of participants, volunteers, sponsors and charities in a way that is engaging and unique.

Looking forward to future projects,

Danny Tran
